Company
profile

The image features a white background with several decorative teal-colored elements. On the left side, there are three concentric, curved lines that sweep from the top-left towards the bottom-right. On the right side, there are two teal shapes: a smaller, angular shape at the top and a larger, more complex shape below it, both with curved edges. The text is centered in the middle of the page.

Two Holy
Mosques King ←

Salman bin Abdulaziz Al Saud

My foremost goal is for our country to be a successful and pioneering model in the world across all sectors, and I will work with you to achieve this.

→ His Royal
Highness Crown
Prince ←

Mohammed bin Salman bin Abdulaziz Al Saud

We have a unique and strategic geographical location, with three of the world's most important maritime straits. Nearly 30% of global trade passes through our waters, presenting immense opportunities to create advanced logistical services across aviation, ports, and industrial complexes.

About Us

OSLCO is a leading and specialized maritime transport and shipping company, with expertise extending to vessel management and seafood production. Our operations are built upon a deep understanding of the maritime market's requirements and challenges, delivering world-class services that exceed customer expectations. We operate a modern fleet equipped with the latest technology and systems, enabling us to overcome obstacles and meet market demands efficiently. Our success stems from an integrated operational system that combines expertise, professionalism, and innovation.

Aligned with Saudi Vision 2030, we are committed to sustainable growth and innovation, strengthening our presence locally, regionally, and globally. We actively support the national economy by creating high-quality job opportunities and developing the Kingdom's maritime logistics sector as one of the enablers of its future vision.

Our Strategic Identity

Our Vision

To achieve leadership and excellence at the local, regional, and global levels in maritime transport, logistics services, and fish production, by delivering services in accordance with the highest international standards, while achieving operational excellence and sustainable innovation.

Our Mission

To provide innovative and comprehensive maritime services based on the highest safety standards, aimed at enhancing operational efficiency, supporting the local economy, creating high-quality job opportunities, upholding corporate values, and achieving a sustainable positive impact.

Our Core Values

**Integrity and
Transparency**

Teamwork

**Flexibility and
Innovation**

**Excellence and
Sustainability**

Our Strategic Pillars

Our Future Aspirations

In line with the objectives of Saudi Vision 2030, and building on OSLCO's role as an active partner in local and global supply chains, the Company aspires to strengthen its presence as a leading provider in the logistics sector by offering a diverse range of services, including maritime transport and shipping, fish production, and vessel management.

Logistics Leadership

OSLCO's aims to be a key part of the Kingdom's journey toward becoming a global logistics hub by expanding its maritime services, providing reliable transportation solutions, and facilitating trade to support both domestic and international flows of imports and exports.

Maritime Transport

Expanding shipping routes and connecting local, regional, and global ports to provide reliable transportation services that support the logistics sector through the ownership, operation, and leasing of vessels within a specialized maritime fleet.

Maritime Shipping

Developing integrated shipping solutions focused on efficiency and technology, facilitating the movement of commercial shipments between the Kingdom and countries worldwide, in line with the latest systems and technologies.

Digital Innovation

Believing in the importance of innovation and digital transformation in developing maritime transport and shipping services, OSLCO strives to implement the latest technologies and smart solutions in shipment tracking, scheduling, and customer service, thereby enhancing the overall customer experience.

Seafood Sector Production

Supporting the fisheries sector by providing high-quality seafood that meets international standards in production and processing, through a facility equipped with the latest technologies, tools, and equipment.

Global Rech

Enhancing global connectivity through an integrated network of shipping and transportation routes, providing direct access to the world's leading ports
